

K-LOVE is the most uplifting station on the air in this community. Since I found it on the dial several years ago, I have listened to nothing else. It helps me through each day with the positive moral messages and songs. I can't imagine not being able to hear the encouragement I need on a daily basis. I don't have to worry about being insulted with the filthy talk I've heard on other stations in the past. We simply need more of this type of programming, not less. We know how easily influenced our children are by what they hear. K-LOVE gives them and all listeners in our community good things to think about and suggests positive behaviors. Please don't allow this wonderful service to be interrupted anywhere. It is so needed.  
Thanks
